April 23, 1985

Mr. Roy Benson
Superintendent
Keigley Quarry
Box 20-B RFD #1
Santaquin, Utah 84655

Dear Mr. Benson:

RE: Final Reclamation, Desert Mound Mine, ACT/021/003, Iron
County, Utah

Enclosed please find the Memo to File for the Division's visit of April 15, 1985, as requested. This memo documents the finding that reclamation of the Desert Mound Office Complex is complete and adequate. However, U. S. Steel will remain responsible for the site until an adequate vegetative cover has been achieved in accordance with Rule M-10(12). *THIS SECTION INCLUDES 70% STANDARD*

Your letter of April 15 indicates that the county will assume responsibility for the haul road. The Division requires that all documentation showing the transfer of this responsibility be submitted as soon as the transfer is complete.

Would you also include the seed mixture tag showing the species used for revegetation at the Office Complex. Jerry Ward indicated that he had it. This would be useful when evaluating the success of revegetation in the future.

If you have any questions, please call me.

Sincerely,

Steve Cox
Reclamation Biologist
